The first 10" 'flat' POS system with a standard PC processor. Compact, elegant and innovative design featuring LED technology makes the QT10 the perfect solution for today's retail environments. Innovative in technology, QT10 offers a new way to use the Touch Screen monitor vertically placed for a better ergonomics, a modern aesthetics and to guarantee reduced footprint on the cash point. Planned and built according to solidity and sturdiness criteria, QT10 is born as a modular system and together with Q3 receipt printer is able to adapt to the environment and the kind of application. Q3 POS printer stands out not only for its capabilities but also for its sophisticated design. The perfect combination, a glossy exterior finished with chrome plating to meet the needs of any high-end retail application.
